Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 44-57, 60-70, 72-81, 85, 87, 88 and 99, drawn to a process of, and apparatus for, making a three-dimensional object.

Group II, claim(s) 58, 59, 71, 86 and 89-94, drawn to a process of, and apparatus for, making a three-dimensional object.

Group III, claim(s) 82-84 and 95-98, drawn to a process of, and apparatus for, making a three-dimensional object.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of Group I is controllably removing non-solidified powder material after forming the object (which is not in Group II or Group III). The special technical feature of Group II controllably cooling the object (which is not in Group I or Group III). The special technical feature of Group III is subjecting the object to infiltration with a material (which is not found in Group I or Group II).

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
